

## Schools Selection – open 365 days a year.

**Information for parents of children who will be starting preschool or Year 7 in the autumn of 2010.**

Information in English.

Information in Arabic.

Essentially, schools should be chosen on the web (applies to both municipal and independent schools). Making this choice is obligatory for parents of children and students about to start preschool or Year 7, or if you want your child to change schools.

To choose a school, parents can register for the Schools Selection service on the web right now. The Schools Selection/childcare website is available 365 days a year.

To be able to choose a school, you need to use the same login details as for the childcare website.

If you do not have any login details, or if you have lost them, click on the link below to let us know you have forgotten or lost your login details.

<http://bou.norrtalje.se/Barnomsorg/inloggning.asp>

You can also send an e-mail to [placeringskontoret@norrtalje.se](mailto:placeringskontoret@norrtalje.se)

The school selection period in the municipality of Norrtälje is ongoing all year round, but you have to make your choice for the autumn of 2010 over the period 25 January - 8 February 2010.

In January 2010, all parents of children who are about to join preschool or are in Year 7 will be receiving letters telling them that they have to make their choices on our Schools Selection/childcare website over the period 25 January to 8 February at the same time for admission in the autumn of 2010. This information letter will also include login details for our Schools Selection/childcare website.

All schools are displayed here on the web. Information is available on the websites of the respective schools for any specialist units.

**Be sure to state any requirements or specialised details under Other information.**

- To the list of all schools.
- When choosing a school, be sure to carefully check applicable school transport rules.

You can choose up to three schools.

If you have submitted choices previously and want to change or add to these choices, you always have to resubmit all your choices. Your old choices will disappear and be replaced with the new ones.

### **School places will be allocated according to the following priorities:**

If your child has brothers or sisters at the same school, they will have priority.

The application date for your selection will be your child's queue date.

If a lot of applications are submitted for the same school, the distance principle will be applied in the first instance.

If you are going to need childcare (recreation centre, educational care) for your child, register for this by clicking on Register, or order forms from the Office for Childcare and Education.

If your child reaches the age of 6 this year and is currently in childcare (preschool educational care), your place there will automatically be terminated by the Office for Childcare and Education, with an end date of 31 July 2010.

If you want to terminate the placement earlier than this, you have to do this yourself on the web by selecting the Terminate placement button. Remember that the notice period is two months.

Both caregivers must approve the school placement.

If one or both caregivers speak a language other than Swedish as their first language and the language is the language of everyday use for the child, this is specified under "Other information".

- Logging in and how to make your choice.

The 24-hour web service at the municipality of Norrtälje can be accessed on the Internet seven days a week. If you are unable to make your choice on the web, or if you have any questions on the web service/Schools Selection, please contact the office managers on one of the telephone numbers or e-mail addresses below.
